

The highest quality
urological care delivered
with compassion
**by the region's leading
urological practice**

Innovative treatments, advanced technology

Through a network of 15 locations,
including a single-specialty
ambulatory surgery center, Robotic
Surgery Institute and Advanced
Prostate Cancer Clinic, COUG's
board-certified urologists deliver
care that sets the standard for
quality in the region.

Established in 2004, Central Ohio Urology Group (COUG) provides a full suite of urological services and comprehensive individualized treatment for its patients, including men's health, women's health and cancer care.

We understand that urological and sexual health issues can range from embarrassing to painful and life threatening. We strive to make our patients feel comfortable, and to provide the information and options they need to make an informed choice.

In addition to its core urology and cancer care services, COUG provides a full complement of integrated urologic services, including in-house dispensary, radiology, pathology, radiation treatment, diagnostic imaging and lab.

Advanced care, delivered with compassion

For physicians —

COUG ranks in the top urology practices nationally, and our board certified urologists offer more than 50 specialty services.

**We understand that urological disorders are deeply personal.
Our care team is known for its compassion, knowledge and support.**

Men's Health

If you are experiencing conditions that have a negative impact on your sexual, reproductive or urological health, ask the experts at Central Ohio Urology Group. Along with general urological issues, we offer a full range of treatments for men's health issues, including erectile dysfunction, ejaculatory dysfunction, low testosterone, prostate cancer and Peyronie's disease.

Women's Health

Our medical team understands women's specific urological needs. We are here to help you with a wide range of common and complex urological conditions, including urinary incontinence, pelvic floor disorders, sexual enhancement, vaginal health and other general urological issues.

Advanced Prostate Cancer Clinic

Prostate cancer is the most common non-skin cancer among men, with more than 250,000 new cases diagnosed in the U.S. every year. Working with your existing doctors, we will build a plan that gives you the most advanced and appropriate treatments for the cancer you are facing.

Conditions

Whether it's a common urological condition or a more complex issue, the skilled physicians at Central Ohio Urology Group have the expertise, technology and understanding to provide unmatched care. Our caring and knowledgeable team will make sure you understand your condition and treatment options.

Treatments

At Central Ohio Urology Group, we understand that you deserve the very best treatment for your condition, delivered with care by highly experienced, compassionate doctors and care providers. Our physicians are experts in their field, with specialized training and experience in advanced diagnostics and innovative treatments.

In-House Dispensary

In many instances, patients can make arrangements to obtain their prescription before they leave the office. We have an in-house dispensary at the Gahanna and Worthington locations. We stock both commonly used and highly specialized medications for treating a wide variety of urological conditions.
